Request of Liaison with TC57

◆**Background**

➢**TC57/WG21 (System interfaces and communication protocol profiles relevant for systems connected to the Smart Grid) scope includes HEMS.**

➢**TC57/WG21 identified KNX, ZigBee and JTC1/SC25 for potential liaison SDOs. However, lacking ECHONET.**

➢**Parts of ECHONET specification have been standardized by TC100.**

◆**Proposal**

➢**TC100 should create liaison relationship with TC57.**

◆**Discussion**

➢**Agreed on this proposal?**

➢**Then, who should be the liaison contact toward TC57?**
