SS7 – Robotics

◆ Status Update
- Phase: Call for member
- Leader: Toshihiro Inokuchi (Interim Leader, until launch of SS7)
- Current member: Ms. Wang Li (CN)

◆ Possible application of Robotics (Source: Japan's Robot Strategy issued on 2015)
- Trend:
  ➢ Many legacy products which were not categorized as robot become robot by combining newly developed sensor devices and AI.
  ➢ Example of legacy product category
    ✓ CE Product, Automobile, Mobile Phone, and House
- Future Standardization Point:
  ➢ In future, multiple robots work as system by collaborating each other.
  ➢ In this assumption, following item can be standardized.
    ✓ Middleware
    ✓ Software Interface
    ✓ communication among equipment
