Report of SS 10 (incl. PT 100-17)

Junichi Yoshio
AGS Meeting
25 September 2017, San Diego

Status report

- PL studied additional items that were discussed and added at the last SS10 meeting in Singapore. These are:
  - 'Multimedia cyber technology' needs its definition.
  - XR is to be included.
  - Security issue to be included, but copy control is not suitable.
- Also PL is studying about the followings:
  - AI in CPS
  - Environmental aspect of CPS
  - Audio CPS model is expanded to video and information CPS

- The working draft was made, it will be studied by SS10 members.
- SS10, XR and VR/AR will be discussed in its CPS aspects.
- This 'PT100-17 on model for TC 100 standardization on multimedia cyber technology' is established in April 2017, PL estimates DTR will be submitted by the next AGM.
